

# Read !

Read, read, read...that's all I need...I want to read, read, read...that's all I need

I'm going to read about dragons, read about queens,

Read about magic jelly beans

I'm going to read about what the animals do...

I might even read to you

Read, read, read...that's all I need...I want to read, read, read...that's all I need

I'm going to read about planets, read about stars

Read about driving electric cars

I'm going to read about how the story ends

I'm going to read about friends

Read ! Read ! Read ! After breakfast...

Read ! Read ! Read ! After lunch...

Read ! Read ! Read ! After dinner...

I'm going to read a bunch

Read, read, read...that's all I need...I want to read, read, read...that's all I need

I'm going to read about how the world could be

Set my imagination free

I'm going to read about the ocean and the sky above

I'm going to read about love

Read, read, read-that's all I need. I want to read, read, read-that's all I need

Read, read, read-that's all I need. I want to read, read, read. I need to read.
